

GLOBE TYPE SERIES

FCV-S800

GLOBE CONTROL VALVE

Application

Suitable for outlet pressure / flow control in gas transmission systems, for gas supply to industrial and power plants

Execution Standards

IEC 60534

Nominal Size

NPS 1" ~ NPS 12"

Nominal Pressure

Class150 ~ Class600

Connection

Flange

Ambient Temperature

-73°C ~ +70°C (can be customized)

Intrinsic Error

Upto ±1%

Hysteresis

≤1%

Dead Band

≤1%

Flow Characteristic

Equal percent, Linear, etc.

Seat Leakage

FCI 70-2 Class IV / V / VI

Materials

Body Cast steel WCB, LCB, etc

Trim Stainless Steel, etc
