

RBV-A300

CONTROL BALL VALVE

Application

Suitable for long distance pipeline and general industrial pipeline to control the flow and pressure of fluid media

Execution Standards

IEC 60534

Nominal Size

NPS 2"~ NPS 40"

Nominal Pressure

Class150~Class900

Connection

Flange

Ambient Temperature

-73°C~+70°C (can be customized)

Intrinsic Error

Upto±1%

Hysteresis

≤1%

Dead Band

≤1%

Flow Characteristic

Equal percent, Linear, etc.

Seat Leakage

FCI 70-2 Class VI / ISO 5208 Rate A

Materials

Body Forged steel LF2, etc

Ball Forged steel LF2+ENP, etc

Trim Stainless Steel, etc
